

Tally and Bar Chart

Read the chart below and fill in the missing information.

Year 3 completed a survey, here are the results:

Favourite author	Tally	Frequency
Roald Dahl		
Jacqueline Wilson		6
Francesca Simon		
David Walliams		2
Other		

What question do you think the children were asked?

_____?

How many children were asked altogether? _____

Who is the most popular author? _____

How many more children liked Francesca Simon than David Walliams? _____

Now create a bar graph to show this information. Remember to include:

- a title for your graph (think about what question the children were asked).
- a name for the x axis (along the bottom).
- a name for the y axis (up the left side).

1					
	Roald Dahl	Jacqueline Wilson	Francesca Simon	David Walliams	Other

Now can you think of your own nature research question to collect data in a tally graph and make into a bar chart?
