

# Stamp collecting

You have these stamps in your pocket.

- Which stamps should you use for each parcel?

You can use each stamp only once.

- Draw the stamps on the parcels.

You can buy any number of these stamps.

- Which stamps could you use for this parcel?

- Write as many different

ways as you can.

Example:

$$1p + 1p + 1p + 1p + 20p$$

Teachers' note This sheet can be used in conjunction with the next to provide differentiation in the main part of the lesson.
