

Planning a VE Day Party.

You are going to be planning a party with a budget of £50. You are catering for 20 people. You need to work to this budget and can't be a penny over. Use the price list below to look at different types of food and drink each guest can have.

Check your workings out. Use scrap paper then complete the sheet.

Questions to think about:

How much does a packet of sausage rolls cost? (Look at how many is in a pack)

How many do we need for our guests?

How much do they cost?

How much would crisps cost and how many packs do we need?

How many bottles of cola can we buy with £1?

Is there enough food for everyone to share?
