

<p>Task 1 <u>Number lines</u> Draw a number line to help you subtract these numbers. Remember you start at the beginning number and work back. You need to remember kangaroo jumps and bunny hops. For addition you start at the beginning number and work forwards. Great job!</p>	$28 - 13 =$ $33 - 25 =$ $42 - 26 =$ $55 - 26 =$ $67 - 38 =$ $73 - 54 =$ $16 + 13 =$ $25 + 14 =$ $38 + 31 =$ $47 + 38 =$ $53 + 36 =$ $66 + 36 =$
<p>Task 2 <u>The W method</u> Remember this is about partitioning the 10s and the units like this $12 + 12 =$</p>  <p>$20 + 4 = 24$</p>	$15 + 13 =$ $26 + 19 =$ $38 + 27 =$ $25 + 23 =$ $47 + 38 =$ $58 + 36 =$ $28 - 14 =$ $39 - 26 =$ $46 + 25 =$ $59 - 43 =$ $65 - 24 =$ $75 - 52 =$
<p>Task 3 <u>Adding 9 and 11</u> Remember this is about adding 10 and then either taking one away or adding one on. Taking away 9 and 11 Remember this is about taking away 10 and then either adding one on or taking one away. Fantastic maths!</p>	$12 + 11 =$ $33 + 9 =$ $42 + 29 =$ $24 + 21 =$ $38 + 31 =$ $47 + 39 =$ $32 - 9 =$ $53 - 11 =$ $56 - 29 =$ $66 - 31 =$ $73 - 51 =$ $86 - 39 =$
<p>Task 4 <u>Doubling and Halving</u> Partition the numbers into tens and units and times by 2 to find the doubles. Half the tens and then the units. Good work!</p>	<p>double 15 double 25 double 37 double 43 double 66 double 71 half of 44 half of 66 half of 82 half of 60 half of 80 half of 100</p>
<p>Task 5 <u>Write out these rows of numbers filling in the missing ones.</u></p> <p><u>20, 40, 80, 100, , 160, , 200, 240, , 300</u></p> <p><u>25, 50, 100, 125, 175, 200, 250, 300, 325, 375, .</u></p> <p><u>6, 12, 18, 30, , 48, , 66, .</u></p> <p><u>4, 12, 16, , 28, 36, , 48, 56.</u></p> <p><u>300, 325, , 375, 400, , 450, 475, .</u></p> <p><u>50, 100, 150, , 250, , 350, 400, , 500, 550, , 650, .</u></p> <p><u>Clever clogs, you have worked so hard this week. Well done!</u></p>
