

# Murder Mystery Grid

Read through and answer the questions on the next few pages to create a clue. The answers will provide a location for a word which will then form part of a sentence - 14 = 1 across and 4 up = Thursday.

|   |           |          |            |           |        |           |            |             |        |
|---|-----------|----------|------------|-----------|--------|-----------|------------|-------------|--------|

# Clue 1

|                |                   |                     |
|----------------|-------------------|---------------------|
| $207 \div 9 =$ | $745 - 683 =$     | $0.66 \times 100 =$ |
| Murder = 23    | Likes = 62        | Eating = 66         |
| $6/8$ of 48 =  | $25.87 + 62.13 =$ |                     |
| Lots of = 36   | Crisps = 88       |                     |

# Clue 2

|                         |  |                     |
|-------------------------|--|---------------------|
| $480 \div 100 =$        | $56 \div 8 = 2 \times 5 - ?$                                       | Work out 5% of £320 |
| Killer = 48             | Washed = 03  | Her = 16            |
| $9.1 - 6.2 \times 10 =$ | Difference between<br>$13:12 \longrightarrow 14:21$<br>in minutes. |                     |
| Hands = 29              | After = 69   |                     |

# Clue 3

|  |                                    |                               |
|--|------------------------------------|-------------------------------|
| 6.8 cm in mm?  | $19 \times 133 \div 133 =$         | Median of 41, 27, 12, 98, 56, |
| Murderer's = 68  | Age = 19                           | Is = 41                       |
|  <p>= 4.<br/>How many below?</p> | $1^\circ$ less than a right angle. |                               |
| Between = 18   | $20-30 = 89$                       |                               |

# Clue 4

|  |  |   |
|--|--|---|
| $960 \div 20 =$  | Amount of minutes between 08:51 and 09:32? | Range of 27, 12, 48, 36, 73   |
| Killer = 48  | Is = 41                                    | Currently = 61  |
| Difference between $11^\circ\text{C}$ and $-2^\circ\text{C}$ . | $5 \times 71 = 305$<br>$305 \div ? = 5$    | <div style="border: 1px solid black; padding: 5px; width: fit-content; margin: auto;">             Eating =<br/>66           </div> |
| In = 13  | Sports Hall = 71                           |   |

# Clue 5

|  |  |                            |
|--|--|----------------------------|
| 20% of £240                              | CDs cost £8. I buy 9. How much change will I have from £100? | Mean of 15, 27, 12, 6, 5 = |
| Killer = 48                              | Works = 38   | In = 13                    |
| $\frac{1}{4}$ of a metre in centimetres. | $288 \div ? = 9$   |                            |
| Year = 25                                | 1 = 32   |                            |
