

# Elephant Maths

Hello there Elephants!

This week you still have your daily tasks but I have put them in a table format

<p>This week we are reviewing shapes. You are great with shapes! Let's start by reminding ourselves of all the different shapes. Open the pdf activity. <b>Can you find?</b> Can you name the shapes? Have a go. Sphere, cube, cuboid, cylinder, triangular based prism, square based pyramid, cone. Did you get them right? Now make a chart of the different shapes you can find in objects around your home. Draw /name the items . You can stick pieces of paper together if you want to make a big/wide or long chart.</p>	 A3.pdf <b>Can you find?</b> <b>Talk about all the shapes you can see in the picture.</b>
<p>Now we are going to think again about the properties of shape. Can you remember we talk about faces, edges and vertices (corners) when we are talking about 3D shapes. Open up the zip folder and either print out or talk through and draw your answers.</p>	 T-N-2620-Properties-of-3D-Shapes-KS1-Resource-_ver_7.zip
<p>You are soooo good at remembering shapes! Well done everybody. Now look at this power point and see if you can name all the shapes.</p> <p>Have a go at this shape colouring sheet. Please read the instructions carefully!</p>	  Colour by 3D Shapes - Middle Ability .pdf
<p>Have a look at these shape nets. If you are able to print these out I think you will enjoy making them and you could get your felt tip out and decorate them with wonderful patterns. If you can't print them, don't worry. Study one closely and see if you can make a copy. <b>Idea!</b> Make them into people or animals. If you wanted to you could make the net with card for firmer shapes and maybe you could stick on paper arms and paper hair and draw faces with googly eyes if you have them. Ha ha ! send me a picture of your funniest</p>	 t-n-2545148-3d-shape-nets-ks1-activity-sheets_ver_4.pdf
<p><b>Extra challenge!</b> These are different kinds of nets but in making them you will be able to still think about edges and vertices. <b>Fabulous work this week my elephants!</b></p>	 t2-m-4794-pop-stick-3d-shapes-cards-_ver_4.pdf
