

## Class One Home Learning: Week Beginning Monday 11<sup>th</sup> May 2020

Hello Class One,

How are you all? It sounds like you are all having a super time at home and doing lots of different things! We hope you are enjoying this strange time, and we look forward to seeing you all again soon. Here are this week's suggestions for online activities, along with some practical ideas to try.

If you want to show us what you have done, you can take a photo and send it to us in an email – we'd love to see what you have been doing! Don't forget to check out the Hyde School Twitter account for daily challenges too, including the sports challenges from the Hampshire Sports Partnership!

[@HydePrimarySch](#)

### Websites and Apps to try this week:

<https://www.phonicsbloom.com/> - We would like Mrs Baggott's group to practise Phase 4 words, Mrs Curtis' group to practise Phase 6 and Mrs Rix's group to focus on Phase 5, particularly ay, ou and ie. This site has a mixture of free and subscription games – please focus on the free games.

<https://www.thenational.academy/online-classroom/year-1/foundation#subjects> – Try these geography lessons on the different continents from the Oak National Academy. There are six lessons, each about 30 minutes long – you don't have to do them all this week! Start with the first one to set the scene and then choose a continent that you are interested in.

<https://www.bbc.co.uk/bitesize/dailylessons> - This is the home page for the BBC online home learning resources. Find your child's year group and choose an English or maths activity to try. These lessons include video clips, animations and activities for you to read to your child so that they can complete them.

[http://www.things2make.com/things2make\\_files/menu%20pages/alphabetical%20list.htm](http://www.things2make.com/things2make_files/menu%20pages/alphabetical%20list.htm) – A selection of activities to try with resources from around the house.

<https://www.nhm.ac.uk/visit/virtual-museum.html> - Online resources from the Natural History Museum in London. There are exhibits to explore and at the bottom of the page there is a link to activities you can try at home. There is also a link to the Natural History Museum Live where you can watch conservators, curators and researchers talk about their collections – new discussions are added twice a week – it is possible to send questions in for the experts to answer!

Try this online link for keeping active:

<https://www.nhs.uk/10-minute-shake-up/shake-ups> - Try these Disney inspired activity ideas! Each activity takes up to 10 minutes.

Don't forget that there are lots of other activities that count as learning experiences, including (but not limited to):

Dancing, tidying, cleaning, making your bed, role play, washing your toys, gardening, climbing, sharing stories, watching TV, listening to the radio, talking to your family, drawing a picture, baking, cooking, junk modelling, cutting, sticking, bug hunting, running, cycling, scooting, singing, sharing, board games...

### Challenges for this week:

- Make a collection of jokes by asking your family and friends for their favourites – you could put these into your own joke book!
- On your walks count all of the birds, animals and plants you can identify. If you have one, take a spotter's guide with you (you can also download apps for this for your phone). Alternatively, you could choose a shape and count all the things you can see that are that shape as you explore your local area.
- Make an emotions book. Take some paper and fold it in half. On each side of the page, choose an emotion and draw what it looks like to you. Label the emotion and write down a time that you have experienced the emotion (for example "I feel angry when my sister takes my toy."). You could also record some ways to help you when you are feeling some of the more challenging emotions (for example, "When I am angry I can take ten deep breaths or walk away.").
- Read or tell a story over the phone to someone who does not live with you. This could be a friend or one of your family members. Remember to ask if they are sitting comfortably and to use expression to help make the story interesting!
- Make a building from a fairy or traditional tale out of things you have around the house – will you make the Three Bears Cottage from Lego? Or Rapunzel's Tower from a kitchen roll tube? What could you use for the gardens for your building? Can you make a story village full of different buildings?
- Have a "sitting room disco" – put on your party clothes, find your favourite music and dance around together. This is a great way to let off energy and have fun, particularly on days that you feel a bit down!
- Play "I went to the shops and I bought..." Each person has to repeat the items already bought and choose a new one to add. A great game for developing memory skills!

Well done to Alice, Niyah, Chloe and Nevaeh for all scoring over 1000 points on Athletics last week! We would also like to say well done to Joshua, Alice and Jacob who took part in the HSG Daily Challenge last week.

Take care, be kind and stay safe,  
The Class One Team

[S.Close@hyde.hants.sch.uk](mailto:S.Close@hyde.hants.sch.uk)

We will try to respond to emails as soon as we can during our normal working hours.

### Additional Websites that Might Be Helpful:

#### English:

<https://sightwords.com/> - A website that has a lot of information for parents about phonics. There are also activity ideas.

<https://stories.audible.com/start-listen> - Audible have made a free collection of audiobooks that children can listen to. They are grouped by age.

<http://www.teachyourmonstertoread.com> – You will need to create an account for your child for this free game that will help them practise their phonic skills.

<https://new.phonicsplay.co.uk/> - Phonics games to play

<https://www.oxfordowl.co.uk/for-home/find-a-book/library-page/> - A selection of free eBooks and reading related activities to try. You will need to create a free account.

#### Maths:

<https://play.trockstars.com/auth/school/student> - Children in Year 1 and Year 2 should have received log ins for this website before the school closed. If you haven't got your log in please let us know! Great for practising times tables!

<https://www.topmarks.co.uk/Search.aspx?Subject=16&AgeGroup=2> - Practise a range of different maths skills by playing a range of maths games.

<https://whiterosemaths.com/homelearning/early-years/> - A selection of online maths lessons for all year groups. A new one is added each day – choose your year group from the menu on the right-hand side.

<https://login.mathletics.com/> - Online maths activities.

#### Interesting Sites to Explore:

<https://www.arcademics.com/> - This is the home page for the Arcademics site (we have used some of their maths games before). There are lots of free games from different curriculum areas.

<https://khankids.zendesk.com/hc/en-us/articles/360004559231-Welcome-to-Khan-Academy-Kids> - this link tells you about Khan Academy Kids, a free American app that, once you have downloaded it and created an account, includes lots of different learning activities. Please note, however, that because it is an American app it uses American spelling and pronunciations. Mrs Close's daughter is particularly enjoying the animal e-books and the maths activities.

<https://www.bbc.co.uk/bitesize/levels/z3g4d2p> - This is the home page for the BBC schools Key Stage 1 content. There are a range of games and activities for the children to explore, including new online resources.

<https://www.livescience.com/coronavirus-kids-activities.html> - A collection of interesting resources to explore.

<https://www.nymetroparents.com/article/museums-with-virtual-tours> - A collection of virtual tours of famous museums.

<https://www.weareteachers.com/virtual-museum-tours/> - Another collection of virtual museum tours.
